

FRANKLIN COUNTY PUBLIC HEALTH COMMUNITY

Good afternoon Franklin County Public Health Community Members,

Franklin County Public Health hopes that this finds you, your families and communities well. As you may have heard, the Governor has announced that COVID-19 vaccines are now available for all Ohioans 16 and up. There are many opportunities to register for the vaccine as providers are beginning to see an increase in doses. We encourage all Ohioans to receive the vaccine and, if they have a primary care provider, to reach out to them initially.

For the quickest access to vaccine scheduling, please visit <https://gettheshot.coronavirus.ohio.gov/>. This site incorporates most of the providers throughout the state and links to their scheduling systems. If you have questions regarding registering through this system, please visit <https://vaxchat.ohio.gov/>.

FCPH is among those continuing vaccination efforts. Please visit <https://vax2normal.org/vaccine/> to register for these clinics as they are available. Note that Franklin County Public Health only provides Moderna vaccine, which is available only to those 18+.

If you have any questions regarding registration through Franklin County, please email c19vaccine@franklincountyohio.gov.
